a fully up to date and comprehensive treatment of international trade this book provides a solid foundation of international trade flows and theories as well as the latest information on empirical developments and new theoretical insights fundamental changes in perspectives are covered including the role of the firm in international trade flows and organization in terms of heterogeneity multinational activity and global supply chain activities the theory is illustrated throughout with empirical evidence and an abundance of relevant case studies the body of the text represents the first tier of analysis it provides extensive written and graphical explanations of the structure of international trade as a second tier of analysis technical notes at the end of relevant chapters seek to support students who wish to take their learning further this book is accompanied by an online resource center that features for students additional review questions

empirical questions based on data provided in excel files simulation questions allowing students to experiment with models for lecturers model answers to questions animated powerpoint slides further questions for use in seminars exams

with a new title following the successful first edition of nations and firms in the global economy this second edition undergraduate textbook combines the dual perspectives of international economics and international business providing a complete overview of the changing role of nations and firms in the global economy international economics and business covers the key concepts typically included in an introductory course on the global economy supported by contemporary case studies from the international business world the result is a practical guide to the world economy for undergraduate students in economics and business also suitable for students in other social science disciplines updated to include the latest theoretical insights data and case studies with online quizzes data exercises and additional reading international economics and business is a lively and engaging textbook providing a complete and practical understanding of international economics and globalization through a uniquely integrated lens

economic sanctions are increasingly used as a legal non military technique of combating abusers of international peace however it remains unclear how the success or failure of these sanctions is measured this book examines the seldom explored united nations economic sanctions deliberation process and exposes systematic problems in the measurement of the success or failure of these sanctions centering on the key concepts of peace and security the author brings the reader s attention to the discrepancies that exist in the process of decision making implementation and evaluation of an imposed economic sanctions she engages international law and development methods to provide proof for the lack of consensus in measures of success and failure which in turn suggests that sanction implementation on a uniform domestic front are unattainable this thorough analysis concludes with suggestions for improving the sanctions process only to clear the path for negating them as a whole and suggest alternative non coercive measures for mitigating conflict situations and threats to peace and security

this work is a comprehensive collection of cutting edge scholarship on the economic international business political legal and environmental ramifications of globalization one of the hottest topics of the day international trade is as old as nations during the last five decades however advances in technology and transportation have changed the scope and method of international trade disputes rage about the effects of these changes advocates for different positions offer argument but little factual or theoretical analysis globalization offers all the information readers need to sort out the arguments written with the highest degree of scholarship intended for college students or working professionals the encyclopedia provides both introductory material to broad economic legal political and environmental theory and in depth analysis of how theory interacts with practice in the framework of global trade a trader in new york can in a matter of seconds execute a billion dollar currency transaction in hong kong what does this transaction mean to new yorkers to residents of hong kong and to the rest of the world this book gives readers the tools to answer those questions

the multinational firm and its main vehicle foreign direct investment are key forces in economic globalization their importance to the world economy can be seen in the fact that since 1990 foreign direct investment has grown more rapidly than the world gdp and world trade despite this the causes and consequences of multinational firm activity are little understood and until recently relatively unexamined in the theoretical literature this cesifo volume fills this gap examining

the multinational enterprise mne and foreign direct investment fdi from both theoretical and empirical perspectives in the theoretical chapters leading scholars take a wide range of modern analytical approaches from new growth and trade theories to new economic geography industrial organization and game theory taking current theoretical work on mne and fdi as a starting point and aiming to extend the existing theoretical framework the contributors consider such topics as investment liberalization and firm location tax competition and welfare consequences of fdi and outsourcing the empirical chapters test several of the key hypotheses of recent theoretical work on mne and fdi examining topics that include productivity effects on italian mnes the different effects of outsourcing in austria and poland location decisions of mnes in the european union and other topics contributorsoscar amerighi bruce a blonigen steven brakman davide castellani ronald b davies alan v deardorff fabrice defever harry garretsen anders n hoffman andzelika lorentowicz james r markusen charles van marrewijk dalia marin james r marukusen alireza naghavi helen t naughton giorgio barba navaretti j peter neary gianmarco ottaviano alexander raubold glen r waddellsteven brakman is professor of globalization in the faculty of economics at the university of groningen harry garretsen is professor of international economics at the utrecht school of economics utrecht university

the fields of economic geography and international business share an interest in the same phenomena whilst each provides both a differing perspective and different research methods in attempting to understand those phenomena the routledge companion to the geography of international business explores the nature and scope of inter disciplinary work between economic geography and international business in explaining the central issues in the international economy contributions written by leading specialists in each field including some chapters written by inter disciplinary teams focus on the nature of multinational firms and their strategies where they choose to locate their activities how they create and manage international networks and the key relationships between multinationals and the places where they place their operations topics covered include the internationalisation of service industries the influence of location on the competitiveness of firms and the economic dynamism of regions and where economic activity takes place and how knowledge goods and services flow between locations the book examines the areas for fruitful inter disciplinary work between international business and economic geography and sets out a road map for future joint research and is an essential resource for students and practitioners of international business and economic development

an economic analysis of the theory modelling and history of international transfers

geographical economics starts from the observation that economic activity is clearly not randomly distributed across space this revised and updated introduction to geographical economics uses the modern tools of economic theory to explain the who why and where of the location of economic activity the text provides an integrated first principles introduction to geographical economics for advanced undergraduate students and first year graduate students and has been thoroughly revised and updated to reflect important developments in the field including new chapters on alternative core models and policy implications it presents a truly global analysis of issues in geographical economics using case studies from all over the world including north america europe africa and australasia and contains many computer simulations and end of chapter exercises to encourage learning and understanding through application

a comprehensive introduction to both urban and geographical economics the two dominant approaches used to explain the distribution of economic activity

across space this fully revised and up to date third edition gives a full account of the ever expanding body of knowledge and insights on urban and geographical economics with an increased emphasis on analytical concepts and empirical methods reflecting developments in the literature since the last edition the authors provide both state of the art theories and empirics introducing new data methods and models for this edition including a whole chapter dedicated to measurement issues and empirical methods written in a style that is accessible to students who are new to the field this textbook also includes more advanced concepts that will interest experienced researchers unrivalled in its scope and depth this title is perfect for readers seeking to understand the uneven spatial distribution of economic activity between and within countries

this accessible introduction to the world economy and to the theory and practice of globalization argues that key topics in international economics cannot be understood without knowledge of international business and vice versa it reviews and combines insights from both literatures and applies them to real world issues clearly explaining the main concepts of international economics and business in a uniquely integrated approach written in a lively and accessible style this innovative textbook covers all the main issues including international trade capital mobility comparative advantage foreign direct investments multinational behaviour financial crises and economic growth it has carefully selected international examples and case studies and special interest boxes which clearly explain more difficult economic concepts the companion website includes additional case studies exercises and answers to exercises data illustrations and links to other useful websites
